

CATERING SET SMALL

With its catering set, BAKO WORX offers the possibility of supplying emergency services with hot meals in a decentralised manner.

Food such as sausages can be cooked in the water basin.

The complete set is delivered in a SafeCase in accordance with DIN 14880, including a foam inlay.

This insulates the water basin and ensures that all necessary components are stored in a clearly organised manner.

Product-ID	720560
Measurement	600 x 400 x 220 mm
Weight	9 kg
Capacity	12 Liter
Temperature range	0 °C bis +90 °C
Temperature accuracy	+/- 0,1 °C
Powerconsumption Pmax	1200 Watt
Protection class* device	IPX7
Protection* plug	IP68

*Protection class according to DIN EN 60529 / ISO 20653
